JMA Solutions prides itself on following the best practices in Aviation Safety Management and provides expertise to support our government clients in mitigating aviation safety risks. Our team has years of experience and extensive knowledge of all the components of the Federal Aviation Administration Safety Management System (SMS) including Safety Policy; Safety Risk Management (SRM); Safety Assurance; SRM panel facilitation; and SMS training.

We are an award-winning service provider with over 12 years of service to the FAA and we stand ready to support our customers.

JMA Solutions prides itself on providing SMS expertise to support the FAA in the following areas:

Safety Policy

— Development of policies for safe unmanned aircraft system (UAS) operations

— Input to advisory boards on UAS rulemaking

Safety Assurance (SA)

— Contributions to/monitoring of FAA Air Traffic Safety Action Program (ATSAP)

— Analyses leading to meaningful safety performance targets

— Compliance verification for acquisitions

Safety Risk Management (SRM)

— Facilitation of SRM panels

— Preparation of hazard lists, analyses and worksheets

— Documentation development and management

Safety Program

— Instructor-led training and facilitation of SMS courses

— Web-based self-based training development

SRM Panel Facilitation, Analysis, & Document Preparation for:

- Nextgen Weather Processor (NWP)
- FAA Modernization and Reform Act
- UAS Operations, Test Sites, Airspace, & Rulemaking
- Combined Support Service-Weather (CSS-Wx)
- Integrated Terminal Weather System (ITWS)
- Weather and Radar Processor (WARP)
